Re: Update on Early Intervention Evaluations via Live Video Visits

We are very excited that additional guidance for eligibility determination has been finalized and posted in the [Provider Connections COVID-19 \(Coronavirus\) Information and Resources](#) area of their website.

The [Eligibility Determination Using Live Video Visit Guidance](#) is another resource to expand the ability of using Live Video Visits to perform Evaluations on children who are not eligible through an existing medical condition or at-risk conditions.

This guidance should assist providers to work with families and children who are waiting for eligibility determination through Evaluation to determine level of developmental delay.

Be assured we are continuously striving to assist families and providers as we continue to navigate the changes needed to move Early Intervention forward with continuous updates. Please continue to monitor the Provider Connections website for updates for more information.

Thank you!
